# PAY STATION HARDWARE

STANDARD SIZE:  
22"  
AND CUSTOM SIZES AVAILABLE

The Pay Station freestanding kiosk is one of our newest and most exciting designs. Available in a variety of powder coat finishes, its exterior coloration is easily customizable and branding friendly.

Although typically built with a 22" display, custom sizes are available, as well as the extremely popular "twin screen," stacked dual-monitor configuration that allows for a combination of touch and non-touch displays.

A wide range of optional integrations also make the Pay Station a flexible choice for a number of different applications. With an expansive array of hardware components, including those required for ticketing and payment processing, the Pay Station is appropriate for a variety of kiosk deployment environments.

CUSTOM BRANDING OPTIONS ARE AVAILABLE IN SILK SCREEN AND VINYL DECAL/WRAP

Optional component integration available (see tech specs on Page 2)

Touch or non-touch displays available

ADA COMPLIANT  
ISO 9001:2015 CERTIFIED

THE REDYREF CLIENT PORTFOLIO PROUDLY INCLUDES:
