RAZOR 2.0

HARDWARE

Standard sizes:
19" and custom sizes available

Modern and adaptable; perfect for digital signage, electronic directory and interactive wayfinding applications, as well as self-ticketing and self-pay deployments.

The REDYREF Razor 2.0 freestanding kiosk features a sleek, flexible design that makes it a true "kiosk chameleon," ready and able to take on whatever duties required. Although the Razor is perfect for digital signage, electronic directory and interactive wayfinding applications, a wide range of optional components also makes it an ideal choice for retail, hospitality, self-ticketing and self-pay needs.

The Razor 2.0 features a metallic powder coat finish and radiused corners for a contemporary but inviting look. Generous space on the enclosure's surface allows for extensive branding opportunities to engage potential customers while allowing them to take control of their user experience via self-service technology.

Durable and exceptionally customizable with a variety of available integrations, the Razor is an ideal digital kiosk solution for a range of deployments.

Also available:

- Custom branding including silkscreen, decal and vinyl wraps
- Optional component integrations (see p. 2 tech specs)
- Touch (interactive) or non-touch (static) displays

ADA COMPLIANT
ISO 9001:2015 CERTIFIED
