Key Features

- Supports both plane landings and boat docks
- Easy storage and lookup of tail and vessel numbers for repeat visitors
- Intuitive user interface
- Allows staff to focus on other customer needs
- Reduces staff training
- Paper or email receipts are available
- Secures users' payments via EMV card transactions
- Offers 24/7 convenience
- Reduces wait times

Recommended Kiosk Hardware: Hoback

Designed to empower digital-first consumer interactions like self-payment, the Hoback and Hoback Lite are some of REDYREF's most flexible and popular interactive kiosk solutions.

With their compact footprints, the Hoback series was designed to offer the performance of much larger kiosks but for smaller spaces, making them perfect for use in less-expensive regional airports.
