RIO HARDWARE

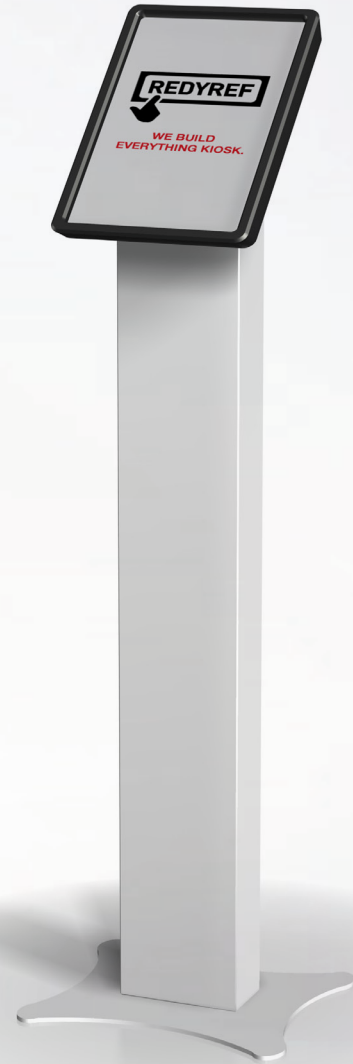

Standard sizes:
15" Portrait Orientation
(10" and 17" also available)

Ideal for quick-service restaurants (QSRs), self-ordering, bill payment and self-check-in needs.

With its ultra-slim profile, the Rio kiosk was built to fit wherever it's needed most, whether for queuing, visitor management, ordering, paying or ticketing. It was engineered for indoor use.

The Rio is one of our most adaptable kiosk solutions.

It features a 15" touchscreen display and can be integrated with any number of optional components, including RFID/credit card readers, while requiring minimal floor space for use.

ADA CAPABLE
ISO 9001:2015 CERTIFIED
