# SKYLINE HARDWARE

**Standard sizes:**  
22", 43" and custom sizes available  
Indoor or Outdoor Rated

*Ideal for transactional applications like ticketing,  
payment and small item dispensing/vending.*

With its crisp, clean lines and portrait-style orientation, the Skyline freestanding kiosk was designed with proportions reminiscent of a sleek high-rise skyscraper. Although it is one of our most popular designs for outdoor ticketing and payment transactions, it is an excellent choice for a variety of other applications both indoor and out. Whether configured with a touch or non-touchscreen display, Skyline makes a bold statement across multiple environments.
