# HOBACK HARDWARE

**Standard sizes:**  
22" Display - Portrait

## Versatile and Modular Design for Enhanced Efficiency

The Hoback Interactive Kiosk is designed with exceptional modularity, allowing for customization with various hardware devices to meet specific needs for speed, cost, and functionality. This flexibility makes it ideal for a wide range of self-service transactions.

### Key Features:

- **Comprehensive Device Integration:** The Hoback Standard model accommodates bill acceptors, card dispensers, and ticket printers. It also supports an array of receipt printers, credit card devices, barcode scanners, and NFC applications.
- **Multiple Use Cases:** Perfect for applications such as cash-to-card transactions, ticket printing, wristband printing, and RFID/magstripe card printing.
- **Enhanced User Experience:** Comes standard with a 22-inch touchscreen display, featuring LED border lighting. The lighting can be remotely controlled via our Engage IoT platform, offering customizable color options to suit various environments and branding needs.

Optimize your operations with the Hoback Interactive Kiosk, a flexible solution engineered for superior performance and user experience.

ADA COMPLIANT  
ISO 9001:2015 CERTIFIED

THE REDYREF CLIENT PORTFOLIO PROUDLY INCLUDES:
